dowhileloop.xyz - Bespoke WordPress Theme

I'm a self-taught coder with a design background. I am continuously improving my UI/UX design knowledge by mastering new skills, creating projects for my portfolio and exploring the principles of good design.

Projects History

Web and mobile app designs, 09/2019, (Link here)

For my latest work, I produced a collection of web and mobile app designs consisting of an array of topics. The purpose of this collection is to improve my design tools knowledge and I aimed to create designs users will find easy to use and pleasurable.

Do While Loop, 06/2019, (Link here)

For this project, I built a bespoke WordPress theme from scratch, with a music streaming platform in mind. I achieved this by learning PHP, WordPress theme development coding language, the WordPress admin panel and also used relevant WP plugins.

MuChat, 04/2019, (Link here)

MuChat is a mobile app concept that I created. I performed research, brainstorming, sketching, wireframing and prototyping to produce this concept.

Web Development Portfolio, 2016 - 2019, (Link here)

This is the platform that I use to demonstrate my HTML, CSS and Javascript knowledge. The use of responsive web design, mobile app prototyping, cross-browser compatibility, e-commerce, animation, colour and typography are all evident here.

Work History
